

# Shop with residence

1. Cut along solid lines, get rid of all the polkadots.
2. Colour and draw on it **before** you fold and glue it together!
3. Fold along dashed lines to make the 3D building shape.
4. Glue the **pattern** side of the tabs to the **inside** of the 3D shape.

What is sold in this shop?  
What can you see through  
that big shop window?

Note. The dotted lines should be  
folded the opposite way to the  
dashed lines.

Awning tab

Glue the reverse  
sides of the A  
parts together.

# Single storey Terrace

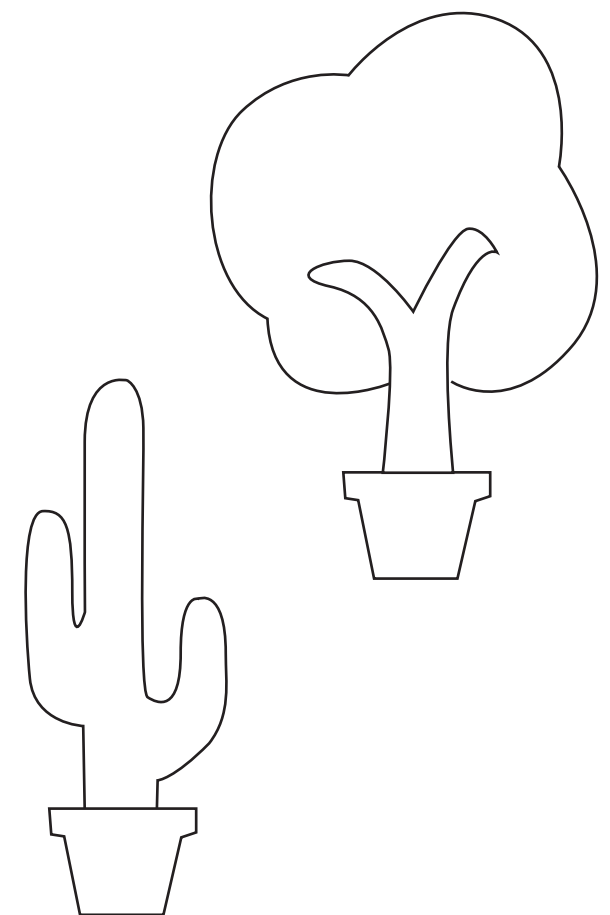

1. Cut along solid lines, get rid of all the polkadots.
2. Colour and draw on it **before** you fold and glue it together!
3. Fold along dashed lines to make the 3D building shape.
4. Glue the **pattern** side of the tabs to the **inside** of the 3D shape.
5. Use the white spaces on the scrap paper to make up your own shape to add to the scene. A pet, a plant, a bird, a bike!

Who lives in this little house?  
Do they have a garden?  
Do they have pets?

Glue for the  
awning goes on  
the reverse side.

# Apartment building

1. Cut along solid lines, get rid of all the polkadots.
2. Colour and draw on it **before** you fold and glue it together!
3. Fold along dashed lines to make the 3D building shape.
4. Glue the **pattern** side of the tabs to the **inside** of the 3D shape.

Who lives in  
this apartment  
block?

What do they  
do at home?

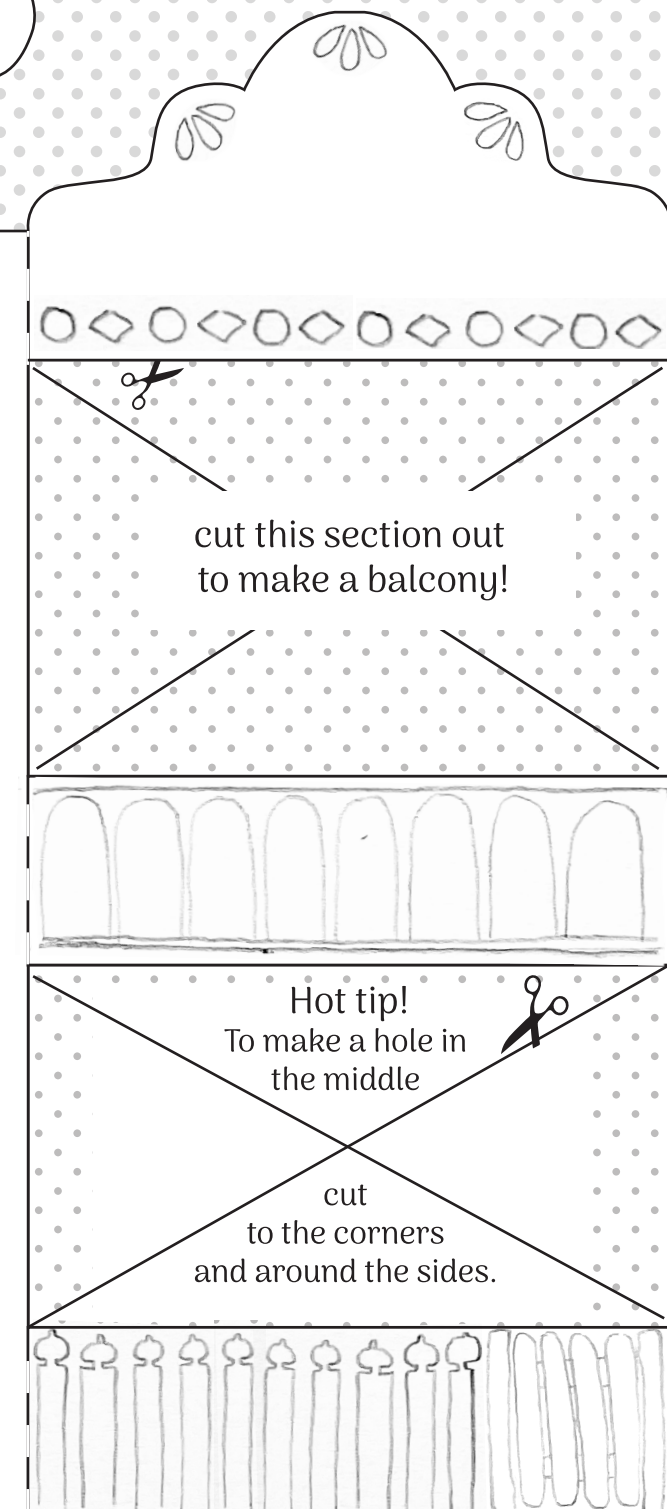

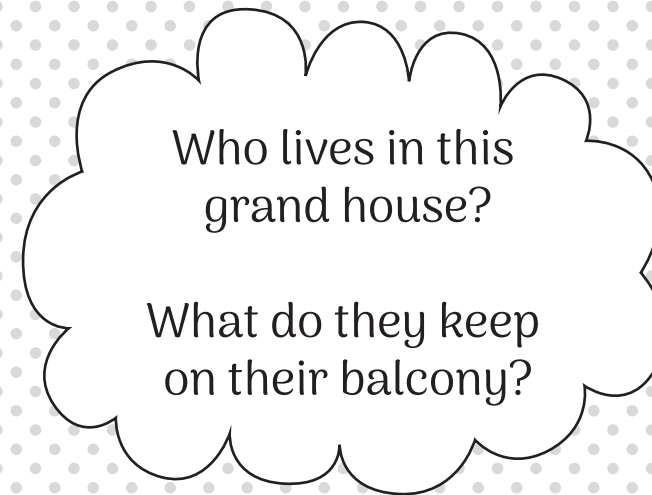

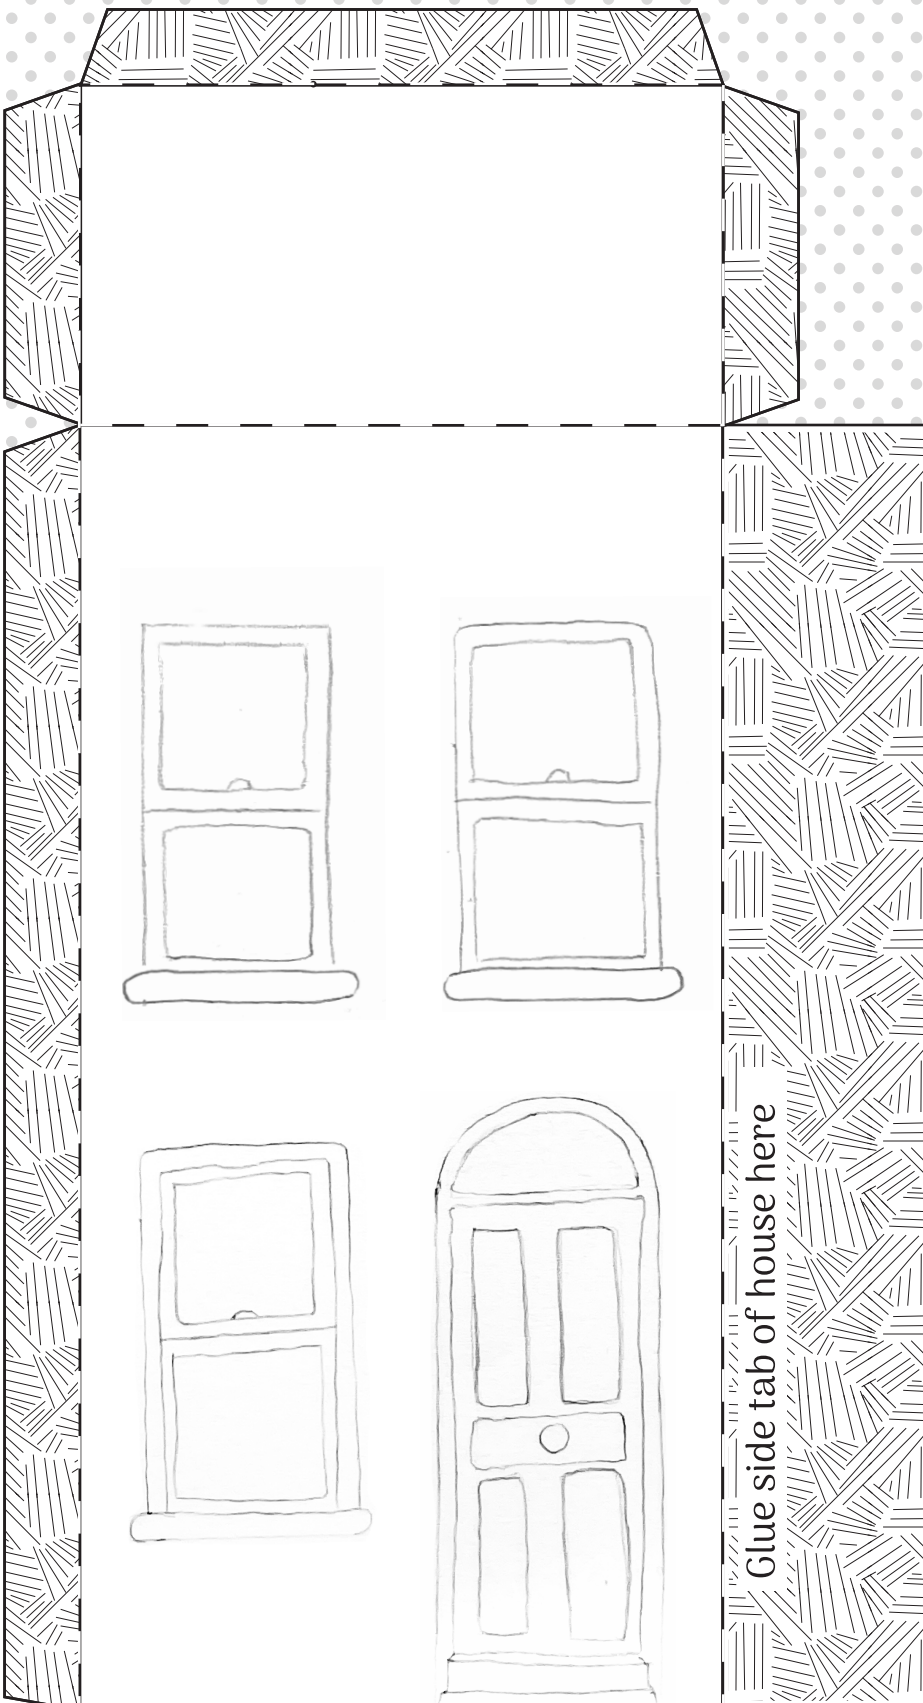

AWNING
